(250) 714-2426
Nanaimo, BC

Adaptable junior full-stack developer combining solid MERN fundamentals with hands-on experience integrating cutting-edge AI platforms to build and deploy forward-thinking web and mobile applications. Versatile and collaborative, eager to join a high-performing team and rapidly adapt to new technologies — backed by 25 years of high-stakes problem-solving from a prior career in commercial diving and fishing.

SKILLS

Frontend: HTML5, CSS3, JavaScript, ES6+, React, React Router, React Native, Expo, Vite, Bootstrap, Responsive Design
Backend, Database & Auth: Node.js, Express.js, REST APIs, Claude API, MongoDB, JWT, Google OAuth, Auth0, Passport Local Strategy
Tools & Methodologies: Git, GitHub, Docker, Vercel, Render, Postman, Vitest, Unit Testing, Agile, Scrum

TECHNICAL PROJECTS

StockGrader (Capstone) - Lead Coder Apr 2026 - Present

- Built and deployed a full-stack app that grades 165 publicly traded companies A–F on five fundamental financial criteria, re-graded automatically every morning
- Built a React/Vite frontend and Express/MongoDB/Finnhub API with JWT & Google auth, sector comparisons, PDF reports, and 332 automated tests StockGrader

BC Marine App - Lead Coder Apr 2026- May 2026

- Cross-platform React Native (Expo) app showing live BC marine conditions — tides, wind, waves, currents, and alerts — from multiple public APIs GitHub

Personal Profile Website - Lead Coder Nov 2025 - Present

- Built a portfolio (HTML/CSS/JS, Bootstrap) with a Claude API AI assistant (serverless function), live API integrations, dynamic widgets, and a validated contact form Portfolio

PenPoints - Lead Coder Jan 2026 - Mar 2026

- Built and deployed a full-stack notes app (Node.js, Express, MongoDB, EJS) with full CRUD, search, pin/reorder, and a validated REST API
- Added Passport authentication (local accounts + Auth0) with per-user authorization and Mocha/Chai tests PenPoints

Weather Forecasting App - Lead Coder Mar 2026 - Apr 2026

- Built a React weather app with current conditions and a 5-day forecast via the OpenWeatherMap API Weather App
